DEPARTURES.

BY GILMER & SALISBURY'S HAMILTON LINE: Miss F McClain Mrs W J Howard

BOARD OF DELEGATES,-The Board of Delegates met last evening at 7 o'clock at Pioche Hose-house. The County Auditor appeared before the Board and read a statement of the condition of the sum of \$1,956. By a vote of six to three d a resolution requesting the Sheriff to discontinue the office of Fire Warden until the 1st of April, 1876. The Board transacted their usual sess after which they adjourned until the next monthly meeting. The lesired us to state the reason of their continuing the office to the 1st of April the county will be enabled to have enough in the Fire Department Fund to pay off the entire indebtedness due the Water Company and will be released from all pecuniary obligations to that

TILL TAPPING. -On Wednesday afternoon Dr. Alexander, as is his custom, strolled over to the Postoffice, and being delayed in a comparison of ideas with Charley Meyers as to the probable tenor of Grant's message and the strocities of the Herzegovinan rebellion, did n't get back to his store as soon as he otherwisome one had rooped the money drawer of its contents. The Doctor regrets that such a dearth of money should exist in Pieche as to necessitate such action, and it seems to us as being one of the strongest arguments we know of in favor of the Raymond & Ely paying off.

LICENSES. - Deputy Sheriff Birdsall will to-day make a call-business callupon all business men who owe the county for the privilege of selling merchandise within its limits, for the purpose of having them ante the amount they owe. As he is a little inclined to be troubled with lameness, too much travel is not good for him; for that very reason he wants every one to be pre pared, as he does not want to call oftener than once. His name is "Crummy, and

GILBERT ROYCROFT is passing his leisure time in the County Jail in wasting the ink and paper of the county inditing communications of a scurrilous nature, hoping to have them published. Of the tenor of these communications are reflections cast on respectable citizens, and setting forth in strong char-acters his own lamb-like and innocent self as a martyr. He is so handsome night possibly be taken for such by a blind man who could hear him

THE COMMITTEE. -The following were the members of the committee of Pioche Hose Company who were overhanling Holand, J. D. Ernst, Matt Halpin, T. Campbell and W. P. Goodman. Six members will be appointed each month to attend to this duty.

The shipment of Randall early in the session, cutting ore from the Raymond & Ely and Meadow Valley mines continue regular, and will this week amount to six hun dred tons. Two trips per day are made as easy and regular as one was formerly The road now is doing as well as is pos sible, and is a great benefit to the camp in keeping the ore-houses cleared and the mills supplied regularly with ore.

Overhauling .- The members of the Protection Hose Company were yesterday morning engaged in overhauling their carbolized hose, taking it from the hose-carriage and straightening it out so as to keep it from blistering. The members of Pioche Hose Company were also engaged in attending to their leather hose, oiling to make it pliable and easily handled so that in cold weather it will run no risk of freezing. The apparatus and hose of both companies will now be found in good order and ready for an emergency.

GRAND BALL .- S. B. Martino will give s grand ball at his house in Bullionville this Friday night. Everything will be in first-class style and every attention will be paid to guests and strangers from Pioche. The cars will leave the Summit at the head of Meadow Valley street at o'clock and those wishing to go who have no private con eyance can do so by being on hand at that time. A pleasant and enjoyable evening will be passed by all who attend the ball.

ORE SHIPMENTS. - The Nevada Central Railroad conveyed on Tuesday 118 tons, on Wednesday 134 tons and Thursday 122 tons of ore from the Raymond & Ely mine to the Newark and the mills at Bullionville. The cars made two trips each of the above days.

EASTERN DISPATCHES.

NEW YORK, Dec. 9 .- A dispatch from London states the first signals of dis-Fire Department Fund, from which it tress sent up from the wrecked steamer appears that at the present date the Fire Deutschland were seen by men of the Department owe the Water Company the English coast guard service. At six o'clock Monday morning several coast guard men turned out and commenced a search for volunteers to go with them in the tug-boat Liverpool of Harwich and aid them in an attempt at rescue. The men to whom they applied refused and passing the above resolution in regard to explain their conduct by saying they thought it was only a collier which was lost; had they known that the distressed vessel had passengers on board they would have gone out. The sea was rough and Harwich is the only place on the line of the shore without a life boat. A woman, crazed with despair, hung herself from the roof of the ship's cabin; one man committed suicide by cutting the veins of his wrists; a Swede, who had been saved from the wreck of the steamship Schiller, was drowned. Many of the rescued are severely frost-bitten and some are not expected to recover. would. On returning he discovered that At daylight Tuesday morning the dead some one had robbed the money drawer bodies of five men were more thating in bodies of five men were seen floating in the water.

Nonwich, Conn., Dec. 9,-L. O. Ackley, of New York, and G. W. Reed, of Philadelphia, cashed at the Shetuckett Bank of this city yesterday drafts for eleven hundred dollars, purporting to be drawn by Larkin, Wright & Co., of Cincinnati, on the Nassau Bank of New York. The draft was subsequently ascertained to be a forgery. Ackley and Reed were arrested at New London and the money recovered.

CHICAGO, Dec. 9. - A Washington special says a tour of inquiry among the Democratic members since the reading of the President's message elicits the most varied of opinions. The subject of the finances, as expressed by the President and Secretary Bristow, is the only objective feature of the official reports that at present occupies the minds of the sluggish legislators. The Cuban question is one about which the most perfect indifference is felt. Few of the Eastern members care to talk about it at all. The Western members say that they have enough to do to occupy themselves without seeking to meddle with a business that can only end without profit to any body. So the Cuban matter will in all probability stand as the President's modified views desires it to be. The finance question being the source of fear and despair in both branches of Congress is sure to come up again. The Bristow do not by any means meet with the approval of the majority of the Democracy. Several members of the House have a resolution already prepared repealing the specie resumption act in the Rapids, near Nanioma, with four of last January. There is no power that can prevent this distroying question from being discussed and when it is, the amenities that now exist are bound to go by the board. Talks with leading Democrats as well as the rank and file about this subject give the most perplexing re-

sults. Some are in favor of withdrawing

billion or so of greenbacks, some believe

NEVADA CENTRAL RAILBOAD. - This Democrats show a prevailing desire to A measure will be introduced by Mr. down the army from 25,000 to 15,000. This is a proposition that will call forth the most earnest effort of the army ring to secure its defeat. It is claimed by the Democrats that the standing army before the war, 13,000, was enough for all purposes when the frontier was more open and exposed than now. The building of the Union Pacific Railroad and the rapid settlement of the frontier States have done much to do away with the need of an army. It is deemed by disinterested military authorities that 15,000 men are ample for all practical purposes. The army cost last year in the neighborhood of forty millions. The reduction of the army by 40 per cent, will thus be a net gain to the Treasury to the amount of carried out in the same ratio as to officers will throw out 400 ornaments upon the cold charities of the world. The possibility of the passage of the bill by the Senate ordinarily would not be of the best, but in view of the fact that the House is set upon the high road to economy, the Republicans can hardly allow themselves to be placed upon record in opposition to so wholesome a change. As a matter of course all sorts of influence will be employed to secure the defeat of this measure as the army is at present the asylum of the sons of rich and influential families. There is now fully thirty per c. at. more officers in the service than are required by the number of men composing the rank and file. The army ring has for a long time so manipulated matters that favorites are detailed on special service at Washington, while men out of rank are assigned to the Far West and other disagreeable duties. The House proposes to break up this system of favoritism, cut down the army and

SAN FRANCISCO, Drc. 9. - Goodall, Netson & Perkins have ordered the steamer Gipsy to go on a cruise north in search of the steamer Los Angeles. The greatest anxiety prevails here, and the belief is gaining ground that she went down in the late gale with all on board. Accounts are conflicting as to her condition, tending to be well informed, assert that she was in no condition to encounter severe weather.

Los ANGELES, Cal., Dec. 9. - The Union mine, belonging to the Coso Consolidated Mining Company, continues to surprise its most sanguine friends, seemingly to improve with every blow of the pick and at every point where operations are pushed. The yield of ore from this mine continues to be of the most satisfactory nature. Lucky Jim has doveloped ore that goes \$200 per ton in silver. The Defiance furnace has been completed. Good report is received If you want any tin ware, sheet iron from the mines in Look Out District. SACRAMENTO, Dec. 9.-In the Assem-

necessary changes in text books, was finally passed under suspension of the rules. At 11:30 the Senate and Assembly met in joint convention and canvassed the vote for Governor and Lieutenant Governor with the following result: For Governor-Irwin, 61,509; Phelps, 31,300; Bidwell, 29,752; Lorell, 356. Total vote, 122,939. Lieutenant Governor - Johnson, 58,424; Cabis, 30,032; Pacheco, 33.-335; Hobson, 202. Total, 122,933. Speaker Carpenter then proclaimed Irwin and Johnson duly elected, after which the Joint Committee adjourned sine die. At noon the procession moved in the direction of Governor Irwin's residence; it was here discovered there had been some informality in the proceeding of the Joint Convention, the law requiring the incoming Governor to to take the oath of office before the Senate and Assembly in joint convention. The sergeants-at-arms and their deputies were sent out after the mem bers and both houses held a short session to cure the defect. At a quarter to two o'clock the procession on its return from Gov. Irwin's house arrived again at the Capitol. Here they were met by the committees of both houses appointed to receive them and proceeded to the Assembly Chamber, where Gov. Irwin and Lieut. Gov. Johnson took the usual oath of office administered by Judge Roseboroug. Senator O'Connor presenting the incoming executive to the Convention. After this the Convention proceeded to front of the Capitol where the inauguration was read. The Governor was duly applauded in reading his message, especially in that part opposing the creation of debts by county and municipal governments. At its close he received congratulations from friends and supporters. There was considerable amusement over the error committed by adjourning the Joint Convention before the Governor
